

WARM WELCOME NUT BROWNE ALE

RIDGEWAY BREWING • ENGLAND

style: Brown Ale

abv: 6.0%

format: 30 liter key kegs / 500ml bottles

500 ml bottle UPC

This beer sports the first label ever to ask openly the question that countless generations have pondered in obscurity: How is a fat guy in thick winter clothes going to get down a working fireplace? Not surprisingly, this high-minded concept came from a ten-year-old – George, the son of Ridgeway brewer Peter Scholey

Peter got to work brewing the beer, which is of course a classic Brown ale with, er, more balls. It's 6% by volume, a little hoppier than your average Brown, and with a little extra malty sweetness. A Nut Browne worthy of the holidays, for sure. Keep an eye out for a little earthy funkiness in the beer, the result of a special multi-strained yeast.
