HOBBYBROUWERIJ HET NEST • BELGIUM

More than ten years ago, eight friends started a beer tasting club. Every two weeks they got together to discuss soccer, women and beer. Their interest in beer grew stronger every year – so strong, in fact, that in 2007 they decided to take up beer brewing courses. They soon learned to master the fine art of brewing. These friends were all born in the city of Turnhout in northern Belgium, a city known for its playing cards. And in playing cards Het Nest has found its inspiration.

Do you like beers with a fruity touch? Try this Jack of Spade (Schuppenboer): a La Chouffe inspired tripel born out of the first brewing experiments. The use of coriander and cascade hops gives the beer its fruity touch.
